Sam Hicks

Sam Hicks

Front-End Web Developer-In Training

Beginning web development student with high passion for front-end development. Lowel-level engineering educated. A former undergrad engineering student who wanted more flexibility, influence and variety in his education, I stumbled upon and opted to pursue web development self-paced. I have enjoyed this discipline thus far and would love to continue to explore, learn and create, evolving towards more professional roles. For this reason, the Web Assistant position seems like a perfect fit to me. Thus far, I have utilized the Linked In-learning Lynda.com ® platform to gain development experience.

Work Experience

Front-End Web Development Trainee

Lynda.com®

February 2018 - Present

Front-End Web Development Learning Path

Courses completed:

- Web Development Foundations: Full-Stack vs Front-End
- Programming Foundations: Fundamentals
- User Experience for Web Designers
- UX Foundations: Accessibility
- HTML Essential Training
- CSS Essential Training 1 & 2

Sales Associate

2020 Companies

August - November 2017

Accomplishments:

- Highly complimented by in-store management.
- Receieved dual-length program extension.

Sales Associate

Jiffy Lube

February - August 2017

Accomplishments:

- Awarded employee of month: February.

Education

University of Colorado @ Boulder - Boulder, CO

Lower-level mechanical engineering studies, 2008 - 2011.

First and second year-humanities and general engineering(math & science) requirements.

- Intro to Engineering Computing
- Scientific Computing in Matlab
- Calculus 1, 2 & 3
- Diff Eq.'s & Applied Linear Algebra
- Experimental Physics & Physics 1, 2, & 3
- General Chemistry for Engineers
- Intro to Engineering Projects
- Social Impact of Technology
